Location

This fantastic vending business is currently run by our client in Preston, Lancashire. Preston is a hugely popular area which is ideally located for convenient travel around the Northwest. The M6, M61 and M65 motorways are all within easy distance, as is the main A6 trunk road. This provides easy access to our clients' current customer base. As the business currently covers the Northwest, a new owner may benefit from moving the business to a unit/workshop within the area, and the business could provide an ideal bolt-on to an existing vending company looking to acquire or build a Northwest customer base.

Business History

Online Business Sales are delighted to offer for sale easy to run vending business which was established by our client in 2004 and is being offered to the market due to our client's desire to take well deserved retirement. Since the business was established our client has built up a strong reputation within the industry and as such sees a high level of regular and repeat trade together with new business from good word of mouth recommendations. Our client has continually added new lines and income streams which have enhanced the business massively. The business is currently owner operated with 1 full time and one part time member of staff and is being run at a pace that suits our client's lifestyle meaning that there is massive scope for a new hands on owner operator to further develop the business. Our client informs us that the annual turnover currently runs at £90,000 which is derived from the installation and maintenance of refurbished vending machines for confectionary, crisps and beverages. This is achieved without a website and with no real social media presence which is an area in which the business could be significantly improved. There is huge potential for growth and diversification and we feel this would be an ideal investment for either a first time buyer or for someone with an existing business who is looking to expand. Additional revenue could well be generated by someone with the drive, energy and vision to take this business to the next level. The business could be run from home with a commercial unit for storage.
