Location

This fantastic business opportunity is currently run by our client from home in a densely populated residential area just a short distance from the outskirts of Bradford city centre. Bradford is very accessible city via several trunk roads; the A650 between Wakefield and Keighley; the A647 to Leeds; the A658 to Harrogate and the A6036 to Halifax which makes it an ideal base for our clients business. That being said, the business could be located anywhere within the West Yorkshire region from which it could service the existing client base and benefit from our clients growing reputation

Business History

Online Business Sales are delighted to offer to the market this well regarded glazing installation and repair business which was established in 2009 by our client and is only being offered to the market due to our clients desire to concentrate on other business interests. Since the business was established our client has worked hard to build a strong reputation within the local community. He operates the business with 1 member of staff and enjoys a high level of regular and repeat trade together with new business from strong word of mouth recommendations. Our client informs us that the annual income currently runs at £20,000 which is derived from the installation of uPVC windows, doors and conservatories together with fascias, soffits and guttering. Additionally the business offers uPVC repairs and upgrades. The business is currently run at a pace that suits our client's lifestyle meaning that there is massive scope for a new hands on owner operator to further develop the business. The business currently covers the West Yorkshire area, however, there is massive scope to broaden the area covered and increase staffing levels allowing for additional work which may increase income. The business could also be linked to an already established business as a bolt-on. Additionally an advertising campaign to promote the business and the services offered may be beneficial. This is a rare opportunity to acquire an established windows, doors and conservatories specialist (suppliers and installers) which has built up an enviable reputation for high quality uPVC, composite and timber products and early viewing is strongly advised.
